How Big Is God s Computer?: How Does God Know Whether We Go to Heaven or Hell?

By Michael David

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Do you believe in God and life after death? If so, then you probably assume that God is the one who will determine whether you deserve an eternal reward or punishment after your life on earth. In order to determine whether we go to heaven or hell, God needs to track our venial and mortal sins. In other words, did the quality of our lives justify an eternal reward? That means that God needs to have a record of all of our thoughts, words and actions along with a record of significant events, relatives and numerous other data items. There are more than 7 billion humans on earth now. How does God know about everything that we think, do and say? How does He know who we are? How does He give us a grade card on the quality of life that we lived? How does God quickly, efficiently and accurately perform this data tracking and disposition process for billions of human beings? The answers to these questions suggest that God must have a fantastic memory whether it...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
-- Ally Reichel

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
